

Knee Pad

KPE01

Features

- Designed for Safety: Features like soft gel core, durable EVA foam padding, and cushion comfort are ideal for sensitive knee and elbow safety and protection.
- Cushion Comfort: The thick foam padding and vents for air pressure provide cushion comfort and safety.
- Adjustable Straps: The non-slip adjustable straps help this knee pad stay in place while walking and kneeling. So you can enjoy your outdoor activities without the fear of sliding.
- Perfect for Professionals: Designed to fit both men and women and comes with a hard polyethylene cap for long wear and easy movement.
- Tough Built: Enjoy wearing these Knee and elbow pads all day long without fear of sweat as they are made from breathable polyester fabric.
- Heavy-Duty: Add these pads sets to your safety equipment and perform any heavy-duty work without any injury concern.
- Easy to Adjust: The flexible, adjustable Velcro straps make for a secure but easy fit.
- Easy to Put on and Off: The ergonomic design hugs your knee and elbow for a superior comfortable fit. The quick-release flexible strap makes putting on and taking off your pads fast and easy.

Product Specification

Product Type	Knee Pad
