

Knee Pad

KPP01

Features

- Built for Safety and Protection: The hard abrasion-resistant PVC cap offers the ultimate protection for your knees on any project.
- Prevent Slippage: The deeply grooved cap prevents slippage and helps maintain balance on various surfaces, all while being non-abrasive to the material you are working on.
- Design for Comfort: Designed to cushion and protect your knees for hours on end. Even on hard and uneven surfaces, the soft and ergonomic support is exceptional.
- Built to Last: Crafted with 600D polyester to ensure breathability for optimal comfort. High-quality materials, stylish design, and double stitching help to make these knee pads built to last.
- Easy to Adjust: The flexible, adjustable neoprene straps and easy-fix clips make for easy on and easy off.
- Easy Cleaning and Maintenance: Simply use a brush or washcloth to wipe down the hard PVC cap surface. For optimal ease, it is recommended to wipe the knee pads down using a cloth and warm water.

Product Specification

Product Type	Knee Pad
Material	Polyester
Cap Material	PVC
Padding Material	EVA Foam + Gel
Closure Type	Hook & loop
Color	Black

Packaging Information

1 Pair / Polybag
25 Pairs / Carton

SKU Information

Product SKU	Size	Inner pack UPC	Carton GTIN
BLSH-ELKP-BK	OSFM	XXXXXXXX	XXXXXXXX

Applications

- Manufacturing plants
- Assembly lines
- Packing and Logistics warehouses
- Individual workstations

Industries

-  Automotive
-  Construction
-  Warehousing & Logistics
-  Automotive
-  Plumbing & HVAC
-  Manufacturing
