

In industrial settings, signage projectors are used to project visual safety, directional, or operational information directly onto surfaces like floors, walls, or equipment. These projectors are increasingly replacing traditional painted signs and stickers, especially in environments where durability, visibility, and adaptability are key.

Product Specification

| | |
|--------------------------------|---------------------------------------|
| Lifespan (Hours) | 50000 hours |
| Working Time (Hours) | 50000 hours |
| Light Source | LED |
| Input Voltage (V) | AC 110V (± 10%)/AC 220V (± 10%) |
| Lamp Luminous Efficiency(lm/w) | 50 |
| Working Temperature (°C) | 30°C - 50°C |
| Working Lifetime (Hours) | 50000 hours |
| Lamp Body Material | Aluminum Alloy |
| Power | 60 w /100 w/150 w/300 w/600 w. |
| Projection Distance | 2- 20 Meters |
| Function | Gear drive/can stand still and rotate |
| Specification | L23cm* W17cm* H18cm |
| Luminous flux (lumen) | 8100LM |
| Lens Type | Ultra- clear full coating lens |
| Remote control | Available |
| Waterproof | Waterproof IP67 |

Applications

- Forklift zones
- Walkways in warehouses
- production line safety
- Cleanrooms or food areas
- Temporary hazard zones
