

UltiLab™

DG3214

5 Mil Disposable nitrile examination gloves offering combination of protection, comfort, and versatility, making them a reliable choice for various professional and personal applications.

Applications

- Used in environments where workers handle chemicals, oils, or potentially harmful substances.
- Safe for handling food products, ensuring hygiene and safety standards are maintained.
- Mechanics and automotive workers use nitrile gloves for their resistance to oils, greases, and chemicals.
- Ideal for use with household and industrial cleaning agents, providing protection against chemical burns and skin irritation.
